IMAGINA 2009: the European 3D industry makes its mark!

Monaco, 6th February 2009 - With seventy stands in our Exhibition Hall, and a twenty per-cent increase in the number of exhibitors at this year's event, IMAGINA 2009 stands as confirmation of the importance of structured European 3D design solutions and visualisation and simulation technology, used by major sectors such as Industry, Architecture, Urbanism & Territory Planning, Media & Entertainment.

A ten per-cent increase in visitors has seen 1650 IMAGINA attendees this year, with 660 companies represented and guests from thirty-eight nations, including many European companies.

Media coverage was strong, with 118 journalists from eighty-one organisations in ten countries covering the three-day event, which was held at the Grimaldi Forum in the Principality of Monaco.

The IMAGINA AWARDS prize giving evening saw fourteen 3D creations being awarded trophies, in a competition that attracted over 350 entrants working in each of the sectors represented and coming from more than thirty countries.

Our 2010 event will build on the innovation and growth that powers the 3D industry, an industry in which IMAGINA plays an integral rôle.

We look forward to seeing you at Monaco's Grimaldi Forum next year, from 3rd to 5th February, for IMAGINA 2010.
